What were the strong points of the session?

- I was made aware of another program which wasn't known before.
- Excellent program overview.
- Last ten seconds when he tied in fire into his work task.
- Good overall perspective.
- Helpful to know what's happening with the program.
- This was a great overview of a topic (section of the NPS) that I knew very little about. It really helps to know more about them.
- The handouts

What were the weak points of the session and how would you change them for the better?

- I am still not sure what they do and I guess because of that question, their validity.
- Do not understand how this can help me unless – never mind.
- Good topic, but session/presenter put the class to sleep...
- Too long. Got lost on the points.
- Too much information.
- The power point was a little confusing

Other comments:

- Probably my lack of NPS organization.
- Good folders.
- How can we help each other out?
